

# Products & Services Offering

## Products

### Fenner Dunlop Americas Conveyor Belting

- Straight-warp & plied rubber conveyor belting for heavy duty industrial markets
- MSHA certified fire retardant below ground and above ground conveyor belts for the mining industry

### Classic Conveyor Components

- Conveyor structure, idlers and pulleys
- Belt cleaning & tensioning systems
- Conveyor load zone foundations & seal systems
- Specialty products such as cable ramps & chute systems
- Pulley lagging

### Dust Control Solutions

- Dust sealing, dust systems, dual seal skirting systems (Apron Seals)

### Enviropeel™ Thermoplastic Barrier System

### Fourthane® Belt Repair Product

- Quick curing synthetic rubber with high tear & impact resistance

### Wear Control Solutions

- Full line of rubber products
- Esco® heavy duty wear iron/sections

### Flexco®

- Belt fasteners and tools
- Ceramic and rubber pulley lagging
- Belt cleaners, belt training
- Impact beds, chute systems

### ASGCO® Manufacturing

- Belt cleaners, skirtboard systems
- Training idlers
- Impact and slider beds
- Ceramic and rubber pulley lagging
- Chute systems

### Precision®

- Pulleys, idlers, shafts, rollers

### Siemens/Flender®

- Gear boxes

### Ringspann®

- High speed and low speed backstops

### Complete Custom Rigging

- Pacific West Wire Rope®
- Esco®
- Columbus McKinnon®
- Actek®

### Liftall®

- Nylon slings & bridles

### Bulk Nylon Rope (limited availability)

### Pneumat® (previously Long Airdox)

- Complete air cannon systems

### Perma®

- Automatic lubricating systems

### Bucyrus®

- Rotary blast hole drill parts

### Tamco® Tools

- Full line of pry bars, jack hammer steel

### Laclede® Tire Chains

- Mud, highway-use tire chains, grader chains, dual chains, adjuster, link tools

### McLanahan®

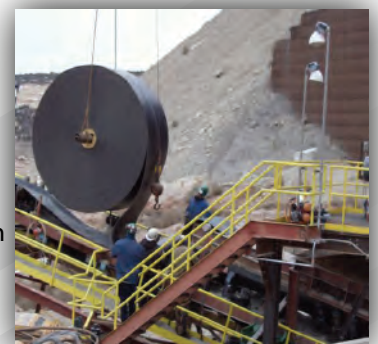

- Crushers, feeder breakers, HSS Sampling Systems

### Voith®

- Fluid couplings

### Superior® Seal Skirting

- Dual sealing system: retention seal and floating dust seal

## S e r v i c e s

### Splicing & Field Installation

- Conveyor belt vulcanized splicing
- Conveyor belt installation
- High-tension steel cord belt splicing
- Belt refurbishing and slitting services
- Turnkey belt change-outs
- On-site belt repair and reconditioning

### Field Mechanical & Inspection Services

- Complete system inspections, repairs, conveyor belt vulcanizing, welding, fabrication & repair, in-field pulley lagging, belt cleaner installation & maintenance
  - Mobile mechanical services
  - Mechanical maintenance & repair services
  - Dust control solutions

### Plant Maintenance

- Changeouts: bearings, Gundlach crushers, feeders, drive motors, conveyor idler
- Replacements: belt cleaner, loadout chutes, hydraulic lines, bearings
- Repairs: conveyor system, chutes, skirtboards, crusher, feeder, truck dump hopper liners and welding repairs
- Installation: complete truck dump crushing station, sample station, conveyors, complete drive stations, conveyor transfer station, silo and headhouse

### Conveyor System Services

- Product installation services
- Maintenance services
- Inspections & troubleshooting

### Engineering Services

- Project Evaluation
  - Application assessment
  - Engineering (drawings, equipment layout)
  - Budgetary and final estimates
- Conveyor system and peripheral equipment design and integration
- 3-D Chute design and evaluation
- Transfer point technology

### Belt Scanning & Monitoring

- rScan® Steel Cord Monitoring System
- EagleEye® Intelligent Belt Monitoring System
- X-ray Services
- Other Monitoring Services

### Facilities Management & Consulting Services

- Design and install conveyor belt systems
- Loadout construction
- Engineered upgrades
- Electrical
- Controls and programming
- Hydraulics
- Coal sampling
- Weigh scales
- Coal analyzers

### Training

- Belt Asset Management
- Certified Splice Training & Belt Schools
- Client Factory Training
