

## Fenner Blue...Tech Line Series

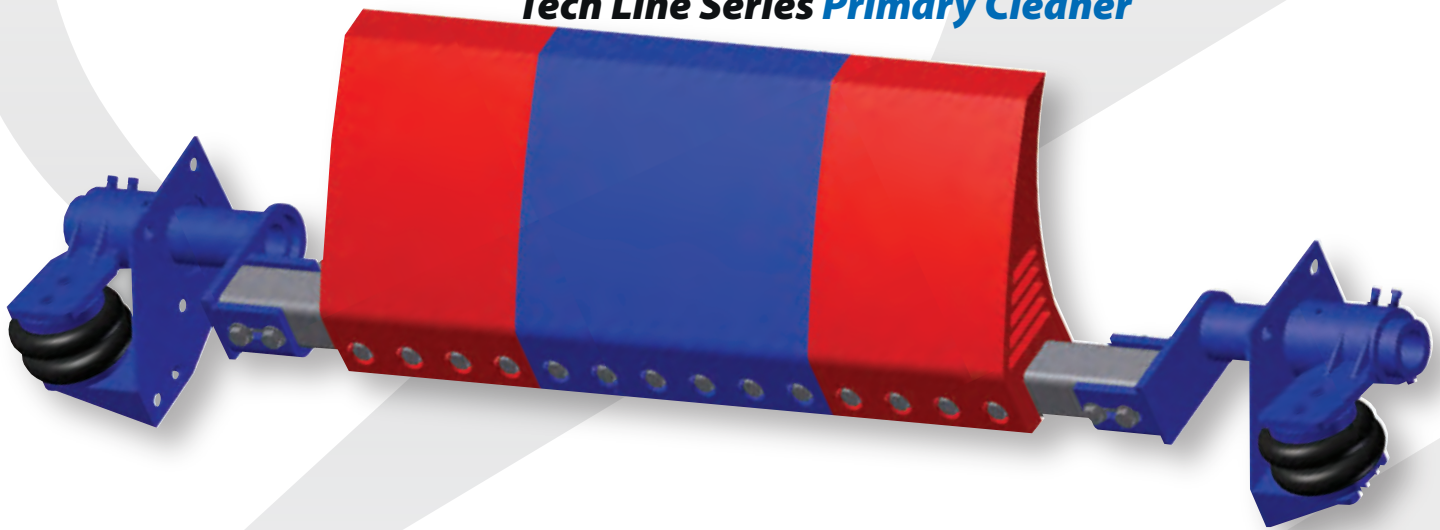

Fenner Dunlop's newest belt cleaner offers new innovation! The Fenner Blue Tech Line Series is an **Engineered Cleaning Solution** customized for your coal mining application. In underground mines the variables impacting effective cleaning are numerous: constantly changing material properties, water content, belt conveyor speed, belt rubber compound, etc. The Tech Line Series was designed with these challenges in mind.

### Tech Line Series Primary Cleaner

#### Some of our benefits include:

- Uniquely designed for use with MSHA belt compounds
- Superior urethane mix that provides extended wear life
- Innovative **TRIZONE** cleaning
- Offset arm yields less belt to blade contact (premier cleaning edge)

### Tech Line Series Primary Cleaner

Pre-Cleaner Size (inches)	Blade Coverage (inches)	Overall Length MD & HD (inches)	HD Assembly Part No.	MD Assembly Part No.
36	30	66	FDHSHD-36-XX-YYY	FDHSMD-36-XX-YYY
